

To Whom It May Concern:

It is has been our privilege to know Amanda Grobbelaar for the past 8 years.

She has been connected to our ministry by her son attending our youth programs. She and her husband later on connected with our ministry.

Amanda has a phenomenal story of grace! She had several damning diagnoses which she handled with a tremendous amount of faith and persistence. It is with this as background that we have used her testimony on several occasions.

Amanda has a well-developed set of public speaking skills and she can handle her own in formal as well as informal settings. Her testimony is trustworthy and well presented in terms of its intellectual directness as well as emotional authenticity.

She also is known for her integrity as she takes the honour and responsibility of Christian Ministry to heart.

It is without reservation that we can recommend her in any context where her story of faith, persistence and hope may be of help.

May you be as blessed as we were by having her!
